

Government-Industry Data Exchange Program (GIDEP)

Initiation & Publication Process

KDP-KSC-P-2103
Rev.: C

Approval: _____
Director, Safety and Mission Assurance

Program/Project/
Operations/Institution

Objectives:

- To meet requirements of NPR 8735.1, Exchange of Problem Data Using NASA Advisories and the Government-Industry Data Exchange Program (GIDEP) and NPR 7500.2, NASA Technology Transfer Requirements.
- To provide NASA with information on suspect nonconforming, improperly manufactured, counterfeit, or safety deficient parts, materials, software, or safety items.
- To generate and release appropriate GIDEP Notices/NASA Advisories when problems or nonconformances are identified.

GIDEP is a cooperative information sharing program between the US and Canadian governments and industry participants. The goal of GIDEP is to ensure that information concerning problems involving parts, materials, software and safety is exchange both internally and externally to NASA, and to provide a mechanism to ensure that appropriate parts, materials, software, and safety items are use.

Note 1: To identify, control, and make corrections for all problem/nonconforming parts, materials, software, and safety items.

Note 2: Evaluate the need for the exchange of data when suspect nonconforming, improperly manufactured, counterfeit, or safety deficient parts, materials, software or safety items are identified. Criteria for "data exchange":

- a) Data is of general interest to the GIDEP community.
- b) Data involving parts, materials, software, or safety items not used by anyone else or acquired for a specific use will not be exchanged.
- c) Data exchanged will not be classified or proprietary.

Note 3: NASA Advisory Reporting System provides standardization for Advisories (<https://nars.nasa.gov>).

Note 4: Provide disposition documentation up to the time that process closed-loop reporting is no longer required (include technical point of contact and corrective actions).

Note 5: For NASA Advisories, forward a copy to HQ Deputy Assistant Inspector General.

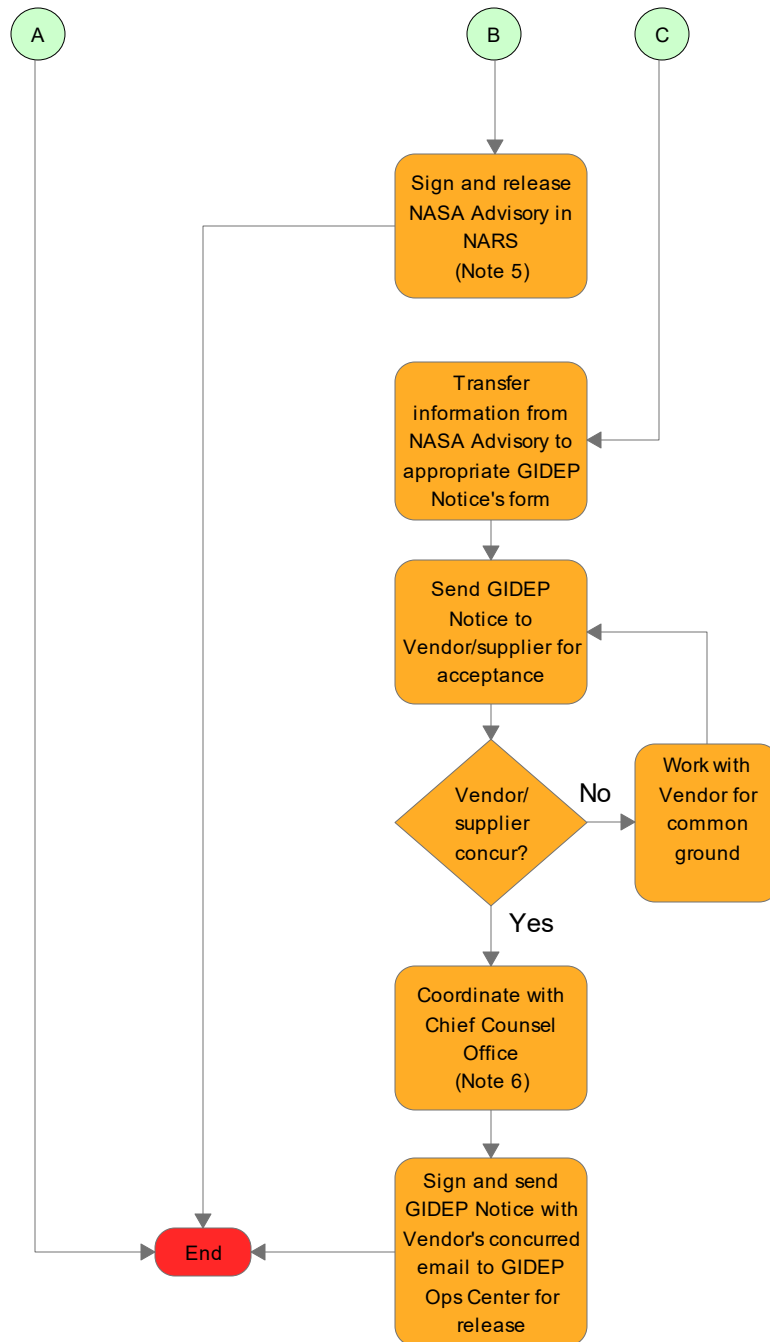

Note 6: Encrypt all documents if sent through emails or hand carry/delivery hard copies. Request for concurrence within 5 working days.

Acronyms:

NARS - NASA Advisory Reporting System
